December 03, 2025: As a Society, We are Only as Good as Our Dumbest Member - and They Put Him on Top to Suffocate Us All

This is, in fact, a plot to destroy our country.

The general premise is to place the dumbest of all members of the society at the very topmost position so that we all suffocate under the weight of his disfunction.

Here, in our lifetime, while I sit researching law, morality, history, and the like, we have a dumb idiot sitting on top of me, literally sending cars of criminals past my home suggesting and informing me that they are my 'lid' to hold me inside of their captive 'Hebrew Universe.'

This is the true life daily journal of the real KING OF THE WORLD - AS HE SITS TRAPPED INSIDE OF A BUBBLE OF OPPRESSION formed over him by his own government and a gang of criminals that his military is feeding classified and confidential information that should be used for our national security.

This is not the plan of a country that is going to succeed.

This is the plan of a country that is secretly being eaten away by a horde of cancerous zombies and demons that are using criminals inside of the military to act as their - 'eyes and ears' - as their lookout while they eat away our present potential and future.

The United States of America was founded by hypocritical liars that deceived us all and have been holding themselves out as our 'leaders' ever since.

Happy 250th Anniversary, America - Welcome to the Truth and Present Moment.

I know, these are very difficult facts to 'wake up' and 'discover' but this is what is written into the history books and what is manifesting itself around my life at this very moment.

Freemasons are a group of imposters. They are literally stealing our nation's potential and plastering it onto themselves while they parade around impersonating those that they are spying upon.

No, I am not kidding. Those are your 'founding fathers' of a long gone American 'dream.'

It's time to wake up now. The dream is over.
